PROFESSIONAL EXPERIENCE

Slalom Inc.

Consultant, Global Technology (Multi-Cloud CoE, Amazon CoE)

Chicago, USA
09/2021–05/2024

- Optimized cloud adoption and management for enterprise-scale clients by working with C-suite executives to identify business value, analyze usage patterns, Total Cost of Ownership (TCO) models
- Engineered cloud-based platforms, applications, and infrastructure in AWS, GCP and Azure, emphasizing high availability, security, and scalability for clients from a wide range of industries
- Managed project timelines and stakeholder communication as a Product Manager, alongside technical engineering work for projects like data-center migration, data-pipelines etc as a Cloud Engineer
- Conducted focus groups and quantitative assessments on organizational effectiveness for Slalom 300 and worked with senior leadership to identify pain-points and implement organizational policy change

Achievement: Promoted from Associate Consultant to Consultant in 1.25yr; Technical Certifications: AWS Solutions Architect Associate (2021), AWS Developer Associate (2022)

Glimmer Labs, Grinnell College

Software Engineer & Usability Researcher

Grinnell, USA
05/2020– 07/2020

- Conducted usability study on Mathematical Image Synthesis Toolkit (MIST), using participant interviews, A/B testing and focus groups to evaluate the application's effectiveness and propose improvements

Endangered Languages Documentation Program, SOAS

Work Placement Intern

London, UK
08/2019– 12/2019

- Collected and processed language data by scraping and processing online language archives, compiling language typology data, and translating metadata for existing language documentation corpus
